Harsh Dwivedi

Application Development Team Lead

With 10 years of experience in CRM Domain. To pursue a career with a global organization, which sustain my ability to work and provide an opportunity to increase knowledge. Aiming to best utilize my knowledge and learn new experience. To give my best towards the success of organization and myself.

Professional Experience

Accenture Solutions Pvt. Ltd. || Application Development Team Lead **||**Sep 2022 - Present

- Worked extensively on Siebel CRM **upgrade from IP13 to IP22.12**, with strong involvement in **Siebel EAI and configuration activities**, including post-upgrade support and **shell/debug-level troubleshooting.**
- Designed and configured Siebel integrations using Siebel EAI, ensuring seamless data flow across systems while also mentoring junior developers and supporting issue resolution during and after the upgrade.
- Customized and optimized Siebel components by modifying legacy **database procedures** to align with the upgraded architecture, enhancing debugging efficiency and system performance.
- **Developed an AI Agent** to automate and streamline daily operational tasks, improving overall productivity and reducing manual effort across routine workflows.

Sesat Solutions Pvt. Ltd. || Senior Siebel Developer **||** Oct 2021 – Sep 2022

- Upgraded Siebel from IP13 to IP17 and **re-developed eChannel application to OpenUI**.
- Customized **CSS and fixed UI issues in Siebel OpenUI**.
- Supported business during post-upgrade transition and implemented production fixes.

Wipro Technologies Ltd. || Siebel Developer / Consultant **||** July 2015 – Oct 2021

- Led multiple **Siebel CRM upgrades** including 8.1.1.5 to IP13, and IP13 to IP20.5 on AWS Cloud.
- Migrated **Siebel eChannel from SI to OpenUI**, including CSS and SWT customization to resolve UI issues.
- Redesigned **ODBC-based logic** using stored procedures post-Oracle 19C upgrade.
- Developed **custom Business Services and VBCs** to enable REST API calls in legacy Siebel versions.
- Implemented **LDAP authentication**, replacing DB-based login mechanism.
- Performed **admin tasks** like Siebel deployments, AOM creation, and configuration.
- Built **virtual services** using DevTest to test Outbound Web Services independently.
- Delivered complete **Siebel Campaign Management** solutions including template creation, delivery, and user training.
- Handled **Siebel workflows, UI bug fixes, client support**, and business requirement gathering.
- Conducted **client demos and user sessions** for new features and enhancements.
